- All pictures sent to Norsap must have correct coloring and background color / transparent.
- If areas in the logo should be without any embroidery / color, the image file must also be transparent in these areas.
- If any colors in the logo is difficult to represent on the image file (gold, silver or similar), specify each color and what is should be represented as (all yellow should be gold stiching etc.).
- For the best result use BMP file format.
- All files should be named as "Name-Shipowner-Customer.BMP".
- If you can't supply a BMP file or have questions regarding this form, consult with our sales managers.
- If the Logo has TM,(C), (R), etc. - This may affect how the logo is centered on the backrest.

**This form should be attached when the final order is placed
with Norsap head office, dealer or agent.**

DISCLAIMER

Norsap cannot be responsible for spelling, punctuation, grammatical errors made by the customer or design errors introduced by the customer in the design process. Errors in user-selected options or image resolution that may change the quality on the result.
