

# NORSAP 1000

BASE

Photo by ARND KUN SHIPYARDS

## PRODUCT INFORMATION

**Norsap 1000** is a chair that fits in most vessels. There are options of having accessories integrated into the armrests such as joysticks, cup holders, mouse or note tables. The chair is mounted on a 100 mm diameter column, creating a firm base for the footrest and seat. The flanged base is designed for permanent deck mounting but can also integrate with an optional deck rail solution. The chair features various adjustments to allow for the best ergonomic position when seated. Standard adjustments are the backrest, seat position on glide rails, 360° rotation, gas-dampened height adjustment, flip-up adjustable armrests and fold-up footrest.
