

NORSAP 1800

ACTIVE

PRODUCT INFORMATION

The **Norsap 1800** Active chair series provides numerous options and configurations, ensuring full adaptability for the operator. The Active chair series has a fully gas-spring actuated ergonomic system with six adjustment features, ensuring optimal working positions for the user. The series integrates with the Active or Impulse deck rail, delivered as flush or top-mounted. Standard adjustments are front and back tilt, forearm and upper arm adjustment, rotation, gas-dampened height adjustment, flip-up armrests and fold-up footrest.
